

Student job

## Student Assistant in the Field of Production Automation

---

In the Production Automation department, we deal with the efficient automation of work and production processes in companies. Our aim is to promote digitalisation through the use of intelligent and networked production. Our particular focus is on methods of artificial intelligence, simulation and modelling as well as human-machine interaction. In this exciting environment, we are offering a position as a student assistant to support us in the realisation of these innovative projects.

### Your tasks

---

- Support in the realisation of research projects in the field of production automation
- Data acquisition and analysis in the context of experiments and simulations
- Participation in the development and implementation of artificial intelligence methods
- Creation and maintenance of documentation and technical reports
- Support in the preparation and realisation of presentations and workshops
- Literature research in the context of scientific publications
- Support with administrative and organisational tasks

### Your profile

---

You are studying one of the following subjects:

- Industrial engineering
- Mechanical Engineering
- Mechatronics
- Electrical engineering

You are interested in engineering activities in an application-oriented environment and would also like to familiarise yourself with business contexts. Very good written and spoken German is required for this job.

### We offer

---

- appropriate remuneration
- independent work

- flexible working hours
- well-equipped workplaces
- Home office by arrangement
- possibly long-term co-operation

Bitte sende deine aussagekräftige Bewerbung in einer einzigen PDF-Datei an [jobs@iph-hannover.de](mailto:jobs@iph-hannover.de).

Die Bewerbung muss Anschreiben, Lebenslauf sowie Prüfungsleistungen des Studiums / Zeugnisse enthalten.
